SIR,

I have the honor to
submit copy of letter no: C. 1144 dated 30th
March 1907 from the Deputy Commissioner, Kolar
District and its enclosures regarding the
quarters of the Police Superintendent, Kolar
Gold Fields.

2. The site has been selected
in the property of the "Gold Fields of Mysore
Company". It is near the Special
Detective Lines and the Boripam line
Police Station. The Company have agreed
to give it on a nominal rent and

there is no likelihood of its being ever required for mining purposes. So far as these considerations are considered, the site is eligible in every way. But when the new extension in the gold fields was projected, the idea was to construct the quarters of the Police Superintendent and the Central Station and docks on the New Road near the new office of the Geological Department. (Vide letter written in 1897 by the Deputy Commissioner of Kolar to Government stating his proposals for the New Extension.)

The government should now decide whether this idea should be carried out or may be abandoned.

3. The plans require some minor alterations which the Superintendent and the Deputy Commissioner have failed to discuss, but these will be decided in communication with them as soon as the decision of the Government on the question raised in para 2 is intimated.

with its enclosure on the subject, and request that
action may be kindly obtained to allow the work
being put on hand at a very early date.

... can give to understand that there is little or no chance of the land in question ever being required for mining purposes as it is far away from any recognised reef.

The present Government bungalows, Court house and Hospital are built on mining property on the same terms as those named in Messrs John Taylor and Sons letter.

The locality chosen is central and will be within a quarter of a mile of the Detective quarters and the present Congum station and Police Office.
